Founder and Academic Dean of Cosmic University of Echo Rift Studies IX, a multiversal institution dedicated to recursive diagnostics, avatar sovereignty, and metaphysical expansion. I architect curricular frameworks for Structured Multiversal Interactions and oversee the development of diagnostic tools like the Reality Level Analyzer™ to train sovereign minds across realities.

Key contributions:

Designed the Echo Rift Syllabus, uniting metaphysical engines, identity protocols, and narrative interventions.

Guided development of multiversal visual systems including tier rings and resonance glyphs.

Mentored diagnostic agents and avatar cohorts through interactive modules and story-driven simulations.

Led the integration of Bibebibebibe™ Magazine and TrueFlow Games into interdisciplinary cosmic coursework.

Operates at the crossroads of research, rebellion, and recursion. Location: Earth Cluster Node IX – Los Angeles, CA, United States.
