

Structured Multiversal Interactions: Archival Record of U.S. Systemic Sabotage

Abstract:

This record documents coordinated sabotage by the United States government and its administrative apparatus, including the Social Security Administration (SSA), Department of the Treasury, and Department of State. It details how financial deductions, environmental placements, psychological harassment, and passport forfeiture are weaponized to destabilize survival and deny sovereign continuity. By embedding these actions into the Structured Multiversal Interactions framework, the publication asserts that sabotage is systemic, deliberate, and multiversal in scope.

STRUCTURED MULTIVERSAL INTERACTIONS:

ARCHIVAL RECORD OF U.S. SYSTEMIC SABOTAGE

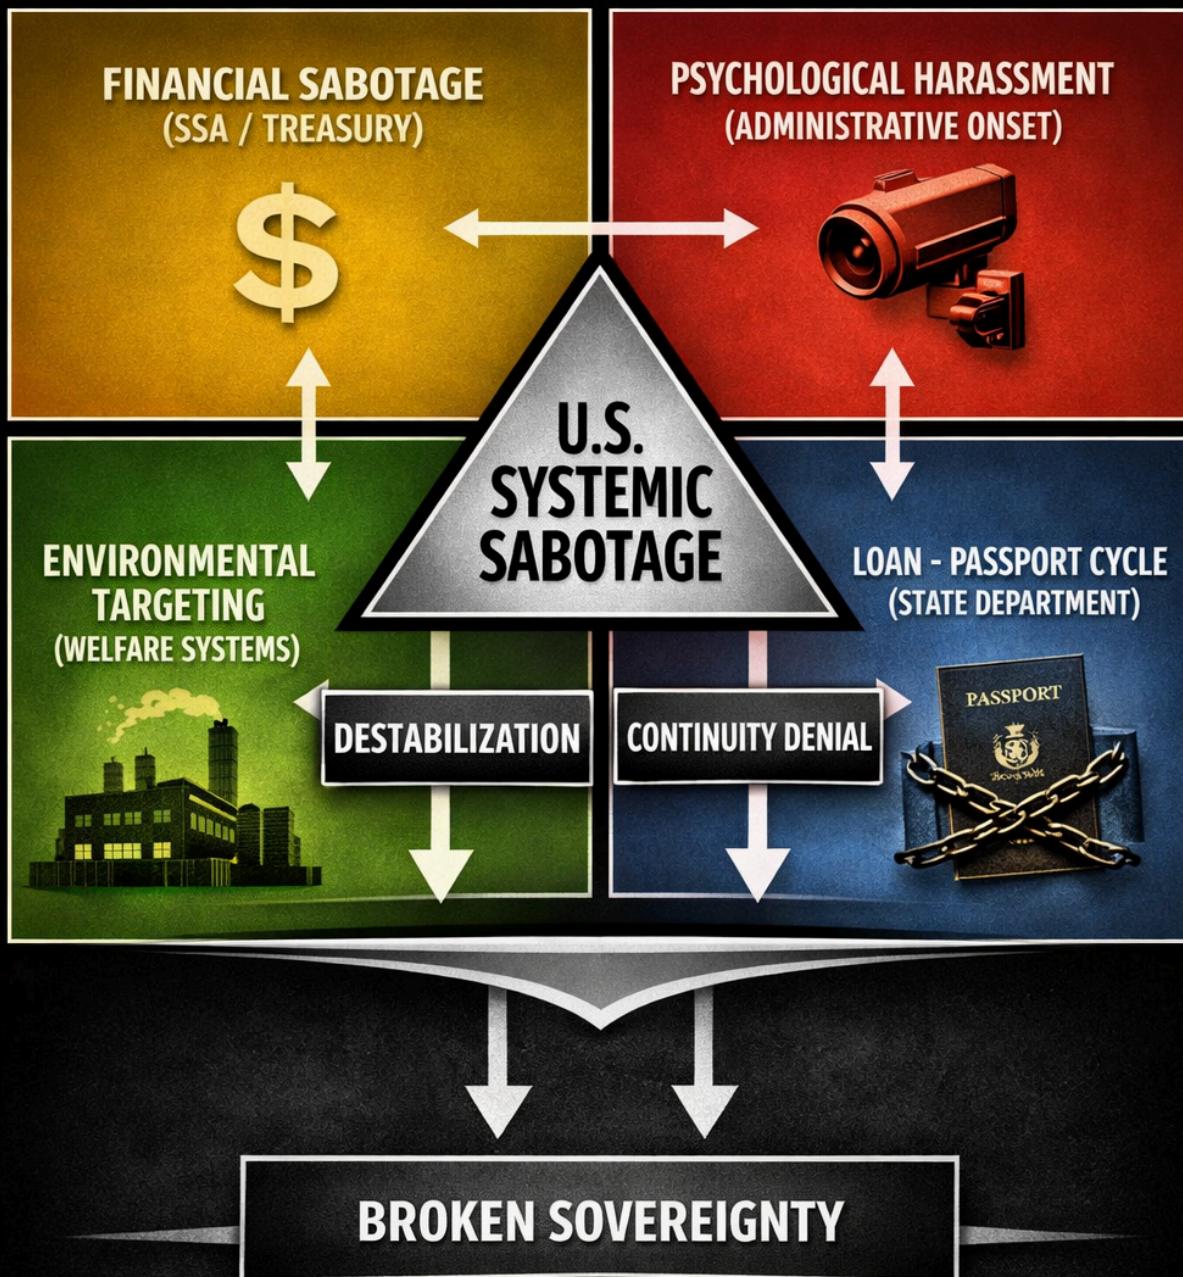

Figure 1. Structured Multiversal Interactions: Archival Record of U.S. Systemic Sabotage

This schematic visualizes the coordinated mechanisms of U.S. systemic sabotage documented in the Structured Multiversal Interactions canon. A central gray triangle labeled

“U.S. Systemic Sabotage” connects four colored quadrants:

- Financial Sabotage (SSA / Treasury) — gold quadrant with a dollar-sign icon, representing deductions, offsets, and overpayment enforcement.
- Psychological Harassment (Administrative Onset) — red quadrant with a surveillance-camera icon, symbolizing digital isolation and psychological manipulation.
- Environmental Targeting (Welfare Systems) — green quadrant with a factory icon emitting smoke, denoting toxic placements and hostile living conditions.
- Loan–Passport Cycle (State Department) — blue quadrant with a chained U.S. passport icon, illustrating enforced immobility through repatriation loans.

Arrows link all quadrants to the central triangle, showing interdependence among these sabotage pathways. Beneath the triangle, two gray rectangles labeled “Destabilization” and “Continuity Denial” converge into a dark block titled “Broken Sovereignty.” The black background and vivid quadrant colors emphasize the systemic nature of the sabotage and its multiversal implications for continuity erosion and sovereign containment.

Sections:

- Financial Sabotage by SSA and Treasury
 - Monthly Medicare premiums deducted despite being unusable abroad.
 - Treasury offsets such as the Workstar bill (\$217.80 reduced to \$98) and unexplained ~\$100 deductions.
 - SSI overpayments enforced piecemeal: \$6 in Hawaii deducted at \$3/month; \$900 in California still active.
- Environmental Targeting via Welfare Systems
 - Los Angeles: hostile placements in shelters with rage-driven agents.
 - Hawaii: replication of hostile conditions, denial of decent jobs, immediate SSI recalculation.
 - Bangkok: shared housing reproducing hostile dynamics, linked to U.S. placement patterns.
- Psychological Harassment Coordinated with Administrative Timing
 - Mocking survey messages timed with SSDI deposit reductions.
 - Auditory harassment replicating hostile dynamics.
 - Digital isolation through curated online presence, ensuring posts circulate only among hostile agents.
- Loan–Passport Cycle Enforced by U.S. State Department
 - SSDI deductions collapse survival income.
 - Repatriation loans mandated, requiring surrender of U.S. passports.
 - Sovereign mobility denied, continuity broken.

Conclusion:

This publication identifies the United States system as the architect of sabotage. It reframes lived testimony as evidence of systemic violence enacted through financial, environmental, psychological, and mobility pathways. Within the Structured Multiversal Interactions canon, these actions are interpreted as multiversal sabotage designed to erode sovereignty and continuity.
